US Market Share Increasing

Market share in the US as reported by Nielsen for the 52 weeks ending September 8, 2018 AOC (™eXtended All Outlet Combined) plus Convenience was .5473%, an increase .0126% share points versus pcp. This is the Yowie share of the total front of store chocolate segment and includes Food, Drug, Mass, Dollar, Club and Convenience channels. Yowie is the #2 seller in \$'s per store where available. In our largest US customer, we are the #2 selling novelty item and #6 in overall \$ Sales. This solid performance is despite the massive launch of a competing surprise inside egg.

Yowie continues to grow in **all** channels. For the past 13 weeks compared to the same period last year, ACV%:

| <u>Channel</u> | <u>2018</u> | <u>2017</u> | <u>Change</u> |
|-----------------|-------------|-------------|---------------|
| Total US + Conv | 43.5 | 34.4 | +9.1 |
| Convenience | 21.8 | 10.4 | +11.3 |
| Food | 20.7 | 13.9 | +6.8 |
| Drug | 27.3 | 17.0 | +10.3 |
| Mass | 98.2 | 97.2 | +1.0 |

The increase in distribution equates to an increase from 24.5k to 42.0k total outlets, with more coming on board. This quarter we have commitments from several regional grocery chains: Basha's (Arizona = 118 stores), Homeland Foods (Oklahoma = 90 stores) and Dierberg's (Missouri = 25 stores). We also have commitments from several substantial Convenience chains: Circle K Arizona, Circle K Texas and Kroger Convenience.

Australia - Growth

The Australian market continues to be a focal point for our growth. With full distribution in Woolworths, we are getting more aggressive to compete nationally in a very competitive, entrenched novelty segment. We have been accepted in Caltex, the largest service station operator in Australia. We expect more distribution throughout Australia and we anticipate growth in New Zealand in as well.

Q1 Financials - Revenue Update

Overall, the quarter sales were close to plan at \$3.7M, but declined versus last year due to series timing and hurricane delayed shipments to Australia, the discontinuation of the Discovery World Series and last year's high US sales base which included results prior to the major competitor launch in the US during Q2. Gross margin continued strong near 50%.

EBITDA – Improving Trajectory

Marketing

The Q1 marketing focus was the Series 4 Wildlife Conservation Society launch into the US market. Our focus remains on social media, and using influencers to share our unique brand proposition and our mission to educate children about the natural world and conservation.

We continue to invest in innovation with a new Series being launched in the US (Series 4 Wildlife Conservation Society) and a new confectionary item scheduled for this fiscal year.

We also continued our focus on providing unique digital experiences to our consumers. We launched our collector app, Yowiescope™, that allows consumers to scan their collectible animals or characters, keep track of their collection, earn incentives and compare their collections to other collectors. This is a key element for Yowie to build the collector community in any market.

We also launched Yopter™, a new digital app game with upgraded playability from our previous games. We continue to plan for more enhanced digital engagement as a core to our keeping consumers engaged with the Yowie brand.

We have launched our new eCommerce, yowieshop.com, site offering 12 and 8 pack Yowies and the Travel Retail pack, with more items planned, including books.
